SUMMARY

I am responsible, well organized and motivated professional. I always struggle to create the product I can be proud of. My goals are improving my skills and searching for the best ways to solve my task.

WORK EXPERIENCE

HTML-CODER

Freelance

Nov, 2020 - Jan, 2021

Creating of landing page online school. I was in charge of setting up the project and creating layout due to design. I used HTML, CSS, JS, Gulp. The page include animations and sliders.

Creating landing CV-page. I have used similar stack of technologies. This page contained a lot of images so I had to improve a loading speed.

JUNIOR FRONT-END DEVELOPER

Magic Group

Jan, 2021 - May, 2021

We have developed web application for cryptocurrency exchange. The stack of technologies included ReactJs, MobX, Material-UI. I was responsible for creating new components, fixing bugs and connecting API.

JUNIOR FRONT-END DEVELOPER

Freelance

Jul, 2021 - Aug, 2021

Exciting project for IT courses. It based on NextJs, SASS, i18n, MobX, Firebase. My main targets were creating new pages and components, implementing multilingual functionality, connecting Firebase and working with animation.
